SUMMARY

AI & Machine Learning Engineer (B.Tech, expected May 2026) with project experience in Python, SQL, and Deep Learning. Developed neural network-based systems for classification, prediction, and pattern recognition, including an image-processing pipeline for currency detection and a Bi-Directional LSTM for automatic bus stop prediction. Seeks to apply foundational ML knowledge and a detail-oriented approach to entry-level AI/ML engineering roles.

SKILLS

Programming Languages: Python, SQL, Java, C

Machine Learning & AI: Machine Learning, Deep Learning, Neural Networks, Generative AI, Bi-Directional LSTM, Image Processing, Sequence Prediction, Behavioral Pattern Recognition

Data Science Libraries: NumPy, Pandas, Scikit-learn

Development Tools: Jupyter Notebook, Git, GitHub, VS Code

Domain Applications: Real-time Note Counting, Automated Stop Detection, Driver Verification, Sensor Data

Web Fundamentals: HTML

PROJECTS

Fake Currency Detector and Note Counting System

- Built an image-processing pipeline to classify currency note denominations and detect counterfeit notes.
- Implemented real-time note counting, improving reliability of automated currency verification.

Automatic Bus Stop Prediction

- Designed a sequence-prediction model using Bi-Directional LSTM to identify bus stop locations from route data.
- Applied deep learning to strengthen intelligent transportation and automated stop detection.

Driver Identification Using Smartphone Accelerometer Data

- Developed a driver-verification system using sensor data and deep learning-based behavioral pattern recognition.

EDUCATION

Saveetha School of Engineering — Chennai

Bachelor of Technology — Sep 2022 - Present

- CGPA: 8.0

Sri Chaitanya Junior College — Vijayawada, Andhra Pradesh

Intermediate — MPC (Math, Physics, Chemistry) — Sep 2019 - May 2021

- 83%

St. Mary's High School — Narasaraopet, Andhra Pradesh

10th Standard — May 2019

- 85%

CERTIFICATIONS

- Oracle AI Foundations Associate: Season 17
- NPTEL — Social Network Analysis: 2025
- NPTEL — Internet of Things: 2025
- Great Learning — Cloud Foundations

LANGUAGES

- English
- Hindi
- Telugu

ACHIEVEMENTS

- Core member of College Cricket Team: Developed teamwork, leadership, and strategic decision-making through competitive sports.
